

Capabilities Liquid Filtration

Proven Expertise Worldwide

Menardi develops filter media and fabricates filters to withstand harsh operating conditions, high temperature, and chemical attack.

Our fabrics can be specially designed for clarity, quick dewatering, and optimum cake release with consideration to operation temperature and chemistry. Our engineers can develop media specifically to meet your most demanding requirements.

Menardi can supply your hardware and accessory requirements including metal and molded synthetic leaves, plates, and frames.

Vacuum Filtration	Pressure Filtration
Horizontal Pan Filters	Vertical Belt Press Cloths
Rotary Drum Filters	Dual Belt Press Cloths
Vertical Disc Filters	Pressure Leaf Covers
Vertical Belt Filters	Filter Press Cloths
Pan Filter Cloths	Centrifuge Cloths
Filter Blankets	Candle Filters
Endless Belts	Strainer Bags
Filter Belts	Kelly Bags

Hardware & Accessories

Woven Wire Cloth Filter Paper	Polypropylene & Metal Plates
