

## High Efficiency Barrier Filter

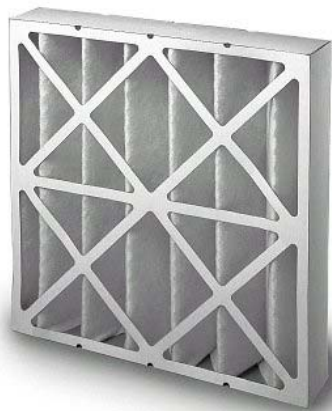

Mini-pleat high efficiency paper filter packs sealed in V-shaped arrangement in a rigid container.

### Nominal Sizes:

- 24" w x 24" h x 12" d
- 24" w x 12" h x 12" d

### Efficiencies available:

- ASHRAE rated: 75, 85, 95, and 98%
- DOP rated: 95 and 99.98%

## Medium Efficiency Prefilters

Disposable filter panel sealed in a high wet-strength, moisture resistant beverage board container.

### Nominal Sizes:

- 24" w x 24" h x 6" d
- 24" w x 24" h x 4" d

### Media:

High loft non-woven synthetic fibers, achieving high dust loading capacity and low operating pressure drop.

## Prefilter Holding Frames with Replaceable Media

Reusable holding frames accept media pleat packs which self-seal when installed.

### Nominal Sizes:

- 24" w x 24" h x 6" d
- 24" w x 24" h x 4" d
- 24" w x 24" h x 2" d

### Holding Frame Materials:

- Galvanized
- Stainless Steel
- Plastic

### Media:

High loft non-woven synthetic fibers, achieving high dust loading capacity and low operating pressure drop.
